SUMMARY

I am a motivated high school graduate with an interest in technology, software development, and computer systems. I have learned programming languages including Python, Java, JavaScript, and C++, as well as HTML and CSS. I am developing my skills in system development, problem-solving, debugging, and software design. I am eager to gain practical experience and continue developing my technical abilities.

EDUCATION

Hospital Hill High School

High School

2022–2025

PROJECTS

System Development Practice Projects

- Practiced programming using Python, Java, JavaScript, and C++.
- Built and worked on small programming projects while learning software development.
- Practiced creating web pages using HTML and CSS.
- Developed problem-solving and logical-thinking skills through coding exercises.
- Practiced debugging and troubleshooting programming problems.

TECHNICAL SKILLS

System development fundamentals

Python

Java

JavaScript

C++

HTML & CSS

Programming fundamentals

Software development concepts

Problem-solving and logical thinking

Computer literacy

Debugging and troubleshooting

Basic web development

System design fundamentals

SOFT SKILLS

Teamwork Communication Willingness to learn Time management Creativity Responsibility Problem-solving

INTERESTS

Software and technology System development Programming Web development Tech work Learning new computer skills
